Winkie Drill Specialists

Helicopter Portable

"We do it anywhere"

LARGE CORE DIAMETER - *Almost BQ ! **

We Use Conventional JKT48 Coring System

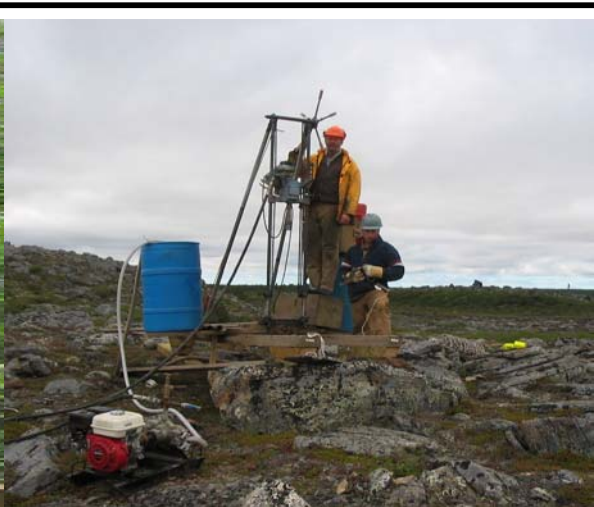

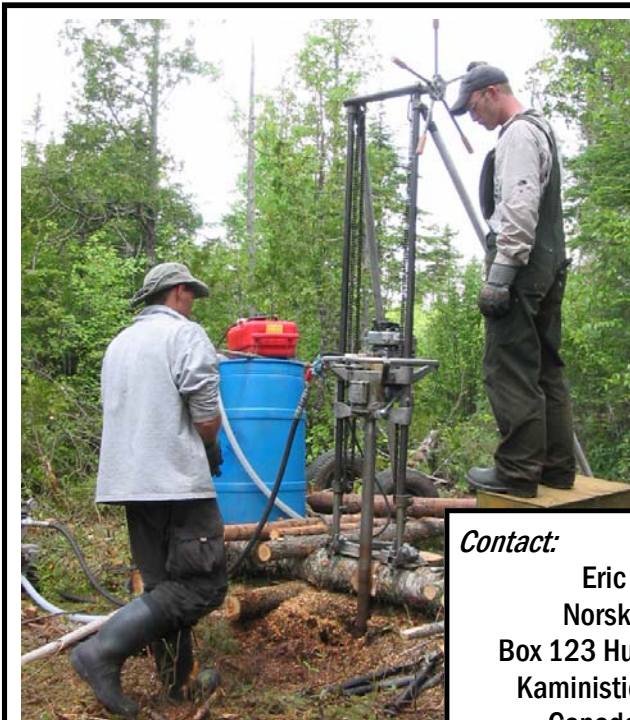

Diameter 35.20 mm or (1.386 in.)

* Compare to: AQTk —30.4 mm BQ —36.5 mm NQ —47.6 mm

Benefits of using Norske Winkie Drilling:

- *-Cost effective*
- *-Large core diameter using JKT drill stock results in perfect core recovery and large sample size.*
- *-With JKT 48 can Bore over 100 meters in Bedrock . With lightweight drill rods, it has the capacity to drill 475 feet using E size tools.*
- *-Can penetrate and case over 15+ meters of Overburden.*
- *-Lightweight—Small enough to be moved short distance by two men.*
- *-Portable—Easily moved by Helicopter or Fixed wing (floats or wheeled).*
- *-Dependable—The Winkie drill has been used all over the world for more than 40 years.*
- *-Excellent for environmentally sensitive areas, this time-proven design makes minimal environmental impact.*
- *-Can be used for Civil Engineering/Construction applications.*
- *Lightweight and compact, the Winkie Drill is particularly suited to drilling in the most remote locations: mountains, deserts, arctic tundra, and dense jungles and forests.*
- *This is the lightest gear-shift diamond drill in operation today. The Winkie Drill is a gas powered drill which weighs only 185 pounds (84.1 kg.) and can be carried by pickup truck, ATV, helicopter or two men into the most difficult terrain.*
- *Variable drilling speeds, using a two-speed transmission, allow the Winkie Drill to operate efficiently.*
- *With lightweight drill rods, it has the capacity to drill 150 meters +using E size tools.*

The depth rating may vary depending upon rock formations and conditions.
