

## Property for Option

Property Name Smoke Lake property— Thunder Bay South District

Mineralization----Au + VMS

Remote property—15km north and east of Marathon airport.

15 Block mining claims—201 units—3216 Hectares, all in good standing.  
over one million of exploration work between 2002 and 2009.

Large assessment file in Thunder Bay mining office.

### Mineralization Highlights

- 1- Lake sediment—anomalous au—13ppb—18 ppb—21ppb.
- 2- Original Smoke Lake float boulders, -6.6ppm to 139.9ppm.
- 3- Au.—in soil values of up to -210ppb + 350ppb + 600ppb.
- 4- 1996 resident geologists office finds Smoke Lake acc. -26.7ppm au.
- 5- 1998 prospectors find angular float— assays up to 20.60 ppm au.
- 6- 1999 prospectors find east budall acc. -3.02ppm au. Budall Lake acc. 1.97% zn + 2810ppm cu. Moose Horn Lake acc. -5.78% zn., 12.4ppm ag + 528ppm co.
- 7- Bond Lake—angular float 14.52ppm au
- 8- Jeff's acc. 7160 ppm zn. + 2020ppm cu. + 3.80ppm ag.
- 9- The Rc South acc. -2.76% zn. + 6.92 ppm ag + 358ppb au
- 10- The Beggs Lake acc. -1.09ppm au. + 2.42 ppm ag.
- 11- Super-G acc—846.4ppm au. +19.10 ppm ag.
- 12- Ild acc. -7.36ppm au. + 20.90 ppm ag. +3820 ppm cu.
- 13- Double Deuce acc. -3.32ppm au. + 334ppm ag. +1345 ppm cu.
- 14- The Crocker Float— 312.90ppm au. + 70.70ppm ag. + 1940ppm cu.
- 15-Many other float boulder acc. assay from 1 to7 ppm au.

Collectively, the presence of a wide range of au. mineralization types in the Smoke Lake property suggests that the potential for finding a significant gold deposit is high.
