Remember, boating and alcohol or other drugs don’t mix. Suzuki encourages you to operate your outboard safely and responsibly. Always wear a life jacket when boating. Specifications, product features and colours are subject to change without notice. Read your owner’s manual carefully. Always wear a helmet and protective clothing when riding and remember to observe all safety regulations and respect the environment. Please see your local Suzuki dealer for more information.
St Andrew Goldfields Ltd.

North American gold miner and explorer.

Forecast production
• 2006 - 100,000 oz
• 2007 - 200,000 oz

Large land holdings in Timmins Mining and Eskay Creek Mining Camps.

www.standrewgoldfields.com
The Ontario Prospectors Association has witnessed a banner year in exploration in Ontario and around the world. The OPA has heard from numerous members about new discoveries and subsequent option agreements that result in the economic stimulation of Ontario.

In the last year we have had some interesting developments on the mining side of the business. Ontario’s first diamond mine is in development. The merger of Inco and Falconbridge and the emergence of smaller mining companies are changing the operational landscape of Sudbury. On the gold side the power of last year’s Goldcorp merger is being seen with the purchase of Placer Dome’s Ontario assets. In the PGE business the Sudbury area is a hot exploration location, North American Palladium continues its expansion underground and Marathon PGM is moving rapidly to being a potential producer. The northeast of the province is booming with gold exploration, development and mining. In Timmins, Lake Shore Gold has unlocked the 100 year old mystery of gold mineralization west of town. St. Andrews and the Porcupine Joint Venture are continuing their success and production. Kirkland Lake Gold has used modern computer technology to unravel some of the complexity of the Kirkland Lake gold mineralization.

These are only a few of the extremely active areas and projects in Ontario. Buoyant commodity prices have driven the demand for quality exploration properties. The surge in all commodity prices has seen companies looking at non-traditional metals such as iron or uranium, which most explorers hadn’t even thought about for decades. Most of the economists that have commented on the commodity demand believe this upturn will be sustained for the next few years at a minimum.

Prospectors are under pressure to find new occurrences to feed the requirements of the exploration companies. Ontario’s highly prospective and varied geology is renowned and is drawing explorers from all over the world.

The Ontario Prospectors Association is confident the prospectors of Ontario will rise to the demand for new properties and have another successful year!
Ontario’s mineral sector is enjoying a boom the likes of which we have not seen since the 1980s.

Our government is keenly aware of this sector’s tremendous potential and we are working with our mining industry stakeholders on many fronts to ensure that Ontario remains a global leader.

Rick Bartolucci
Minister of Northern Development and Mines

The 2006 edition of the Ontario Mining & Exploration Directory comes at a very exciting time in the history of mineral development in this province.

Ontario’s mineral sector is enjoying a boom the likes of which we have not seen since the 1980s. Commodity prices are at record highs and opportunities to grow and prosper abound. Three new mines have been opened over the last year and near record levels of mineral exploration are leading to the discovery of exciting new potential mineral deposits. With the recent signing of an agreement between DeBeers Canada and the Attawapiskat First Nation, we are on the verge of witnessing the establishment of Ontario’s first diamond mine.

Our government is keenly aware of this sector’s tremendous potential and we are working with our mining industry stakeholders on many fronts to ensure that Ontario remains a global leader. That is one reason we work with the Ontario Prospectors Association to produce this annual compendium which contains so much valuable information about mineral exploration companies and mining operations in Ontario. We are investing $15 million over three years to undertake geological mapping to help unlock the mineral potential in parts of Ontario’s Far North. We are working with the Ontario Mineral Industry Cluster Council to identify opportunities to enhance competitiveness, innovation, and investment in Ontario’s mineral cluster. We are also assisting producers by investing in research into deep mining capabilities, which will help extend the life of existing mines.

I take pride in the high quality of programs and services the ministry provides the mining industry with geological maps, inventories of mineralization, access to historical geological information and the considerable expertise found in our Ontario Geological Survey. The government’s award-winning CLAIMaps system provides free, online access to province-wide digitized maps and mining land information. Our mining legislation is a model for other countries around the globe.

The economic benefits of mineral production are taking root throughout the entire province and particularly in Northern Ontario. Promoting mineral development in Ontario is a task our government takes seriously. We will continue working diligently to build on our status as a world leader in mineral exploration and development.
Contact Us Today and Explore the Opportunities!

The Ontario Ministry of Northern Development and Mines provides investors with extensive and up-to-date information on mineral exploration and development. For further information on exploring the many exciting mining investment opportunities in Ontario, you can contact us at one of the numbers below or visit the Ministry’s website: www.mndm.gov.on.ca

### Campbell Mine

**Placer Dome Canada Ltd.**
- **Gold**
- **Underground**

**Address**
P.O. Box 10  
Balmertown, ON P0V 1C0  
(807) 735-2075  
Fax: (807) 735-2765

**Website**
www.placerdome.com

**Mine Manager**
Jacques Perron

**Production Rate**
Mill capacity - 1,700 tons/day

**Production**
2002 - 193,150 ounces gold  
2003 - 197,144 ounces gold  
2004 - 209,045 ounces gold  
2005 - 210,000 ounces (est)

**Reserves**
2.6 M t @ 17 grams/tonne (gpt) for 1.3 million ounces of gold (at Dec. 31, 2004 - proven and probable)

**Opened**
1949

**Employment**
430

**Notes**
Exploration drilling confirmed the extension of Goldcorp’s Red Lake mine property High Grade Zone onto the Campbell mine property.

### Dome Mine

**Porcupine Joint Venture**
(Placer Dome Canada Ltd (51%) and Kinross (49%))
- **Gold, Silver**
- **Underground and Open Pit**

**Address**
1 Gold Mine Rd  
P.O. Box 70  
South Porcupine, ON P0N 1H0  
(705) 235-3221  
Fax: (705) 235-2343

**Mine Manager**
Vern Baker, Area General Manager

**Production Rate**
Mine capacity - 1,500 mtpd

**Production**
2002 - 133,000 ounces gold  
2003 - 123,757 ounces gold  
2004 - 112,279 ounces gold

**Reserves**
1.7 M tonnes @ 10.6 gpt (at Dec. 31, 2004 - proven and probable)

**Opened**
1985

**Employment**
130

**Notes**
A new mining plan to extend the life of the mine and buy time for development will cut operations and reduce production to 36,000 ounces of gold in 2006.

### Eagle River Mine

**River Gold Mines Ltd.**
- **Gold**
- **Underground**

**Address**
P.O. Box 1520, 127 Mission Road  
Wawa, ON P0S 1K0  
Office - (705) 856-2718  
Fax: (705) 856-7173

**Mine Manager**
Ron Price

**Production Rate**
900 t/day

**Production**
2002 - 73,900 ounces gold  
2003 - 70,700 ounces gold  
2004 - 66,800 ounces gold  
2005 - 70,000 ounces (est.)

**Reserves**
0.96 M tonnes @ 9 gpt gold (at Dec. 31, 2004 - proven and probable)

**Opened**
1995

**Employment**
130

**Notes**
Underground operations are scheduled to reopen in 2006 after closing in 2004.
Falconbridge Sudbury Operations

Falconbridge Limited
Fraser Mine
Onaping/Craig Mine
Lindsley Mine

- nickel, copper, cobalt, platinum group metals, sulphuric acid
- underground

Address
Falconbridge, ON P0M 1S0
(705) 693-2761 x6172
Fax: (705) 966-6530

Production Rate Clarabelle Mill capacity - 45,000 tons/day

Production (est.)
2002 - 102,000 t nickel, 105,080 t copper
2003 - 100,000 t nickel, 114,000 t copper
2004 - 109,000 t nickel, 124,000 t copper, 422,000 oz PGMs
2005 - 98,883 t nickel, 113,400 t copper

Employment 4,800 combined Ontario operations

Reserves 177 million tonnes averaging 1.3% nickel, 1.4% copper, 0.72 gpt platinum, 0.82 gpt palladium, 0.31 gpt gold
(at Dec. 31, 2004 - proven and probable)

Notes INCO’s Sudbury operations currently include: seven mines, the Clarabelle mill, a smelter, nickel, copper and silver refineries, one sulphuric acid plant and a liquid sulphur dioxide plant. Inco also operates a nickel, cobalt and precious metals refinery in Port Colborne, Ontario.
### Copper Cliff North Mine
- **Mine Manager**: Richard Howes
- **Production Rate**: 3,200 tons/day
- **Opened**: 1886

### Copper Cliff South Mine
- **Mine Manager**: Richard Howes
- **Production Rate**: 2,900 tons/day
- **Opened**: 1889

### Creighton Mine
- **Mine Manager**: Brian Maynard
- **Production Rate**: 3,755 tons/day
- **Opened**: 1902

### Garson Mine
- **Mine Manager**: Mike MacFarlane
- **Production Rate**: 2,150 tons/day
- **Opened**: 1902-1986; reopened 1994

### Gertrude Mine
- **Mine Manager**: Brian Maynard
- **Production Rate**: 2,000 to 3,000 tons/day
- **Opened**: Re-opened in 2002

### Lower Coleman Mine and McCreedy East Mine
- **Mine Manager**: Mike MacFarlane
- **Production Rate**: 4,750 tons/day
- **Opened**: 1992

### Stobie Mine
- **Mine Manager**: Mike MacFarlane
- **Production Rate**: 10,800 tons/day (Stobie) and 3,300 tons/day (Frood)
- **Opened**: 1886 (Stobie), 1889 (Frood)

### Kidd Creek Mine
- **Falconbridge Ltd.**
  - **mines**: zinc, copper, silver, cadmium, indium, sulphuric acid
  - **mining type**: underground
- **Address**: P.O. Bag 2002
  - Timmins, ON P4N 7K1
  - Fax: (705) 267-8709
- **Website**: www.falconbridge.com
- **Contacts**:
  - Dan Gignac (General Manager, Kidd Mining Division)
  - Daniel Picard (General Manager, Kidd Metallurgical Division)
- **Production Rate**: mine rate - 5651 t/day
- **Production**: 2002 - 104,083 t zinc, 45,434 t copper, 3.6 M t silver; 2003 - 75,528 t zinc, 46,409 t copper, 2.7 M t silver; 2004 - 87,847 t zinc, 41,029 t copper, 3.8 M t silver
- **Reserves**: 18.1 M t @ 1.8% copper, 6.0% zinc, 58 g/t silver (at Dec. 31, 2004 - proven and probable)
- **Opened**: 1965
- **Employment**: 1,465 (mine and metallurgical site)
- **Notes**: Kidd Creek operations include the underground mine and metallurgical site. The metallurgical site comprises a concentrator, copper smelter and refinery, electrolytic zinc reduction plant, two sulphuric acid plants, cadmium plant, indium plant and a liquid sulphur dioxide plant. Mine D is being developed and Stage I should be completed in 2006.

---

**River Gold Mines Ltd.** was formed in 1994 and is engaged in the exploration, development, mining and processing of gold. The Company operates the Eagle River Mine located in the Mishibishu Lake area of northern Ontario. Since inception River Gold has produced over 770,000 ounces of gold. River Gold remains unhedged and is highly leveraged to the price of gold.

**River Gold Mines Ltd.**

100
Notes
The mine was purchased from Lockerby in 2004 and reopened at the end of 2005.

Canadian Environmental and Metallurgical Inc. is well recognized and is an industry leader specializing in contaminated effluent treatment, specifically the High Density Sludge (HDS) process for acid mine drainage (AMD) and acid rock drainage (ARD) neutralization, metal precipitation, and sludge stabilization. The highly focused technology group offers innovative and cost effective solutions to water treatment. CEMI owns and operates a mobile pilot plant used to develop plant design parameters and engineering criteria for the HDS process. CEMI has also developed an inexpensive process to remove selenium and arsenic to < 0.5 u/L which is highly automated, low operating cost, produces extremely low volumes of sludge compared lime treatment, and small installation footprint.

CEMI is well known and recognized as industry leaders in the field of environmental testing and waste characterisation. In addition, metallurgical work related to ore and concentrate hydrometallurgy, as well as mineral processing by flotation, gravity and other means are all part of the services offered.

Static Testing and Characterization
- Acid Base Accounting
- Sulphur speciation
- Carbonate determination
- Metals analysis (trace metals and whole rock)
- Short term leach tests
- Net acid generation
- Wet and Dry Screen assays
- Mineralogy

Kinetic Testing
- Standard MEND and ASTM humidity cells
- Custom column leach tests
- Custom subaqueous disposal tests
- Custom ARD prevention tests

Address P.O. Bag 2002
Timmins, ON P4N 7K1
Office - (705) 267-4482
Website www.falconbridge.com
Mine Manager J. MacDonald
Production Rate operating rate - 1,179 tpd
Production 2004 - 2,152 t nickel and 1,188 t copper
Reserves 4.9 M tonnes @ 1.5% Ni, 0.7% Cu (at Dec. 31, 2004 - proven and probable)
Opened 2004
Employment 104
Notes Mine is expected to produce 9,000 t of nickel annually.

Musselwhite Mine
Placer Dome Canada Ltd. and Kinross Gold Corporation
• gold
• underground, open pit
Location Opapamiskan Lake, 103 km N of Pickle Lake, Ontario
Address P.O. Box 7500
Thunder Bay, ON P7B 6S8
(807) 532-2160
Fax: (807) 532-2021
Website www.musselwhitemine.com
Mine Manager Chris Start
Production Rate 4,000 tons/day (mill rate)
Production 2002 - 209,675 ounces gold
2003 - 236,454 ounces gold
2004 - 240,274 ounces gold
2005 - 250,000 ounces gold (est)
Reserves 7.6 M t at 5.5 g/t gold containing 1.3 M ounces gold (at Dec. 31, 2004 - proven and probable)
Opened 1997
Employment 323
Notes The expected minelife is through to 2013.
Pamour Mine
Porcupine Joint Venture
Placer Dome Canada Ltd. (51%) and Kinross Gold Corporation (49%)
• gold
• open pit
Address
1 Gold Mine Rd
P.O. Box 70
South Porcupine, ON P0N 1G0
(705) 235-3221
Fax: (705) 235-2343
Website
www.kinross.com and placerdome.com
Mine Manager
Gary Halverson
Production Rate
operating rate capacity - 1200 t/day
Reserves
An estimated content of 1.6 million oz of gold (2005).
Opened
1936 then reopened in 2005
Employment
247
Notes
Production began in 2005. The estimated minelife is ten years.

Red Lake Mine
Goldcorp Inc.
• gold
• underground
Address
Balmertown, ON P0V 1C0
(807) 735-2077
Fax: (807) 735-2703
Website
www.goldcorp.com
Mine Manager
Claude Lemasson
Production Rate
mill capacity - 700 tons/day
Production
2002 - 525,930 ounces gold
2003 - 532,028 ounces gold
2004 - 551,900 ounces gold
2005 - 555,000 ounces gold
Reserves
3.1 M t at 50 gpt gold containing 5.0 million ounces (at Dec. 31, 2004 - proven and probable)
Opened
1948
Employment
137
Notes
Goldcorp is sinking a new shaft that will be completed in 2007 and increase production to more than 700,000 ounces.

Timminco Metals
Timminco Ltd.
• magnesium, calcium, strontium metal
• open pit
Address
962 Magnesium Road
Haley, ON K0J 1Y0
(613) 432-7551
Website
www.timminco.com
V.P. Operations
F.A. Timpano
Production Rate
quarry - 1000 tons of dolomite weekly
Production
6,000 tons magnesium metal and alloys, 400 tons calcium metal and alloys, 135 tons strontium metal annually
Reserves
50 years at current production rate
Openened
1981
Employment
240 at Haley facility; 20 at Westmeath facility
Notes
Strontium produced at Westmeath, 50 km west of Haley.

Williams Mine
Williams Operating Corporation (Teck Cominco Limited, Barrick Gold Corporation)
• gold
• underground and open pit
Address

He’s got a pacemaker.
She’s got a grandfather.

Your donations help give someone a second chance.
Heart disease and stroke are Canada’s #1 killer. But we’re not fighting a losing battle. Over the past 40 years deaths from heart disease and stroke have dropped by 50%.
Today, research and education, funded by your donations, are making a difference.
His pacemaker is just one example of the medical advances that save lives each day. But the battle isn’t over yet.
Please give to the Heart and Stroke Foundation.

Drill core with confidence.

Depend on Norex Drilling for your next exploration drilling program. Surface or underground. Ground or air access. We deliver quality drilling solutions that are client-focused and cost-effective. Visit our web site to find out more.

How to be a Local Hero

Imagine a Canada where people make giving an important part of their lives. Where they plan how much they can give, in time and in money. Where they don't wait to be asked to help. Imagine the rewards of being one of those people. Be a Local Hero.

A new spirit of giving

programs, commodity studies, resource
delineation/estimation, financial analysis,
43-101 & securities-related reports, evaluations
ranging up to full scale feasibility studies.
Blakes means business.
A LEADING LAW FIRM WITH A RESPECTED INTERNATIONAL MINING PRACTICE.

Our Mining Group, working from our domestic Canadian offices and our international bases in London, Beijing and Chicago, has extensive experience in transactions on every continent involving every commodity. Our client base spans the spectrum from major multi-nationals to junior exploration companies. We act for both mining companies and the banks and underwriters who finance them on mergers and acquisitions, joint ventures, listings, redominciles, equity and debt financings and project finance. Blakes also has expertise in environmental, land and native title issues facing management of mining companies.

Houghton Canada has served the mining industry for over 75 years.

Clear cut.

Hobic Torpedo Bits

Atlas Copco has heard exploration industry demands for better bit performance and lower costs per metre drilled. Innovations in design, materials and the manufacturing process have culminated in the introduction of the Torpedo series of coring bits including the V-13. With 13mm of impregnation, field tests have shown the V-13 to be more productive and longer lasting in medium to very hard rock.

When it comes to exceeding customer expectations, the Torpedo bit is a clear cut winner.

Dependable exploration products and a global service network... Atlas Copco is your core drilling solutions company.
